

DMC - 0-10V output

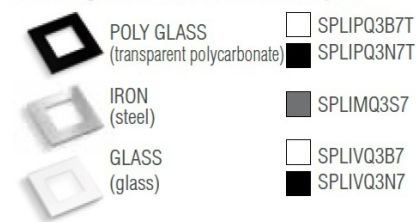

TVDMCxxxBB10

Dimmer 230 Vac with built-in radio receiver and UP/DOWN and OFF buttons to adjust 0-10V devices (e.g. ballast for fluorescent lamps). It is ideal for wall-mounted installation.

- If controlled by a 7-channel transmitter, it is possible to pre-set 4 light scenes
- Pushbutton input for manual controls
- Relay output for power supply to controlled devices up to 800W
- Light memory function (it memorises the light level of the last time it was switched on)
- Fade function (gradual light ON and OFF)

Interchangeable frames available on request:
